A highly motivated Web and IT specialist with over six years of experience assisting clients in the private sector launch and maintain their websites and infrastructure. Advanced knowledge of building efficient e-commerce solutions including Bigcommerce, Magento, Salesforce and Woocommerce. Detailed knowledge of managing and planning website builds and assisting clients in maximizing the utility of their online presence. Seeking a position to grow and expand into new and emerging Web/IT technologies.

Work History

2019-12 - 2020-12

Project Manager
Federal Construction Group

- Worked with the Federal Government on Fire Alarm installation at the Point Loma submarine base.
- Worked alongside Project Managers to install, troubleshoot, and repair new fire Alarm Systems.
- Obtained Osha 30-Safety certification, 40-hour EM385 certification, and the USACE Construction Quality Management For Contractors certification.

2018-08 - 2019-10

Web Development Project Manager
V-Digital Services/The Phoenix New Times, Phoenix, Arizona

- Onboarded, prepared, managed, and launched web development projects nationwide.
- Worked rigorously with the web development team to design, build and launch web projects that included small e- commerce stores to large corporate websites for name brands such as Four Peaks Brewing(Anheuser-Busch) and Wine & Design (featured on ABC's Shark Tank).
- Managed 15-20 clients continuously across 8 city markets nation-wide

2017-09 - 2018-04

Web Developer
Mt. Baker Vapor, Mesa, Arizona

- As the sole Web Developer for a multi-million dollar company, this role required the ability to maintain company website and codebase, create new content pages via BigCommerce's stencil CLI file

structure, assist other departments on backend website errors, build product pages, and assist in Salesforce implementation and migration.

- Increased site performance by eliminating bugs and site resource issues
- Was company point of contact for all internal IT questions in relation to company website operations.
- Contributed to codebase with new site features and pages
- Established internal intranet for each department with simple Content Management System

Education

2021-03 - 2021-06

Certificate: Full Stack Web Development (MERN Stack)

UCSD - San Diego

- Coursework focused on the MERN stack (MongoDB, Express.js, React.js, and Node.js)
- Graduated with 3.8 GPA

2012-01 - 2016-01

Bachelor of Science Degree: Web Design & Development

Platt College - San Diego
